NUMBER SEQUENCES 'ANGEL NUMBERS'

Introduction

The phenomenon of 'Number Sequences', sometimes known as 'Angel Numbers' is becoming more and more prevalent day by day. Thousands upon thousands of people from all walks of life, from all parts of the world, and from every creed and religion, are reporting the phenomena of noticing particular number sequences on clocks, timers, car number plates, billboards, and from all kinds of sources.

According to respected authors, therapists and spiritualists around the world, this phenomenon is occurring as a new 'Spiritual Awareness' is taking place and gaining momentum on our planet. As a race, people are evolving on a Spiritual level, with the number sequences being 'messages' from a Higher Source.

Your angels (or spirit guides) guide you through your thoughts, feelings, words and visions. They also show you 'signs' - that is, things that you see repeatedly with your physical eyes. One of the signs is repetitive number sequences.

According to renowned author and therapist, Doreen Virtue, in her book "Healing with the Angels", "the angels do their best to get our attention and to communicate with us. In this way, they help us heal our own lives. However, we often discount the signs that they give us, writing them off as mere coincidences or our imagination."

Your angels often communicate messages to you by showing you sequences of numbers. They do this in two ways. First, they subtly whisper in your ear so that you will look up in time to notice the time displayed on the clock, or the phone number on an advertisement or something similar. The angels hope that you will be aware and acknowledge that you are seeing this same sequence of numbers, over and over.

The second way in which the angels show you meaningful 'Number Sequences' is by physically arranging for something like a car driving in front of you that has specific number plates, and hope that you realize that you are seeing the number sequence again. They *want* you to notice, then look into the messages further.

When you notice a particular number sequence recurring for you, ask the angels what they are trying to tell you, and you will find that your angels will give you additional information. Monitor your thoughts carefully, and be sure to only think about what you want, not what you *don't* want.

The great Pythagoras said that everything in the Universe is mathematically precise, and that each number has its own vibration and meaning. The placement of the numbers in a sequence holds special meaning.

Numerology is a sacred science that has maintained its relevance from ancient to modern times. Numbers point out the importance of seeing 'messages' three- dimensionally, in order to show us the lessons, growth opportunities and guidance contained with each experience.

As you recognize and interpret the numbers around you, you may feel more connected to the angels. This connection allows the angels to open the door to an incredible connection that brings peace, hope and love.

Number sequence interpretation is an easy way to receive messages from your angels. Numerals are everywhere, from digital clocks to license plates. Each number has a vibrational frequency relating directly to its meaning.

The angels always seek to give us guidance and answers. When they call our attention to number sequences, it is a positive sign of their devotion, love and power. When you notice a number sequence, listen to your angel's guidance that comes through your feelings, visions and thoughts. The more you notice these signs, the more frequently they will appear in your life. Once you understand the 'signs' meanings and accept that they are not mere 'coincidences', but important and purposeful events and messages, you will experience a close and clear communication with your angels. You will discover spiritual signs and messages all around you, all the time.

You may also notice number sequences that signify things of personal significance, such as birth dates, anniversaries, telephone numbers etc. In these cases the angels are giving you an even deeper, pertinent and personal message.

The recurrence of number sequences is a subtle and constant reminder that something magical ... something Divine is happening. When you

see the number sequences ('Angel Numbers'), acknowledge that the angels are telling you that you are on your true path, and say 'Thank You' to them for communicating with you.

The Mayans were an incredibly advanced, ancient Mexican civilization with extraordinary skills in astronomy and mathematics. Their 26,000 year old calendar officially ends on December 21, 2012 at 11:11. This date marks a rebirth of our world according to the Mayans. This new world we are moving towards is all about 'oneness' rather than 'separation'.

Afterword

The Universe and our angels whisper to us all the time, attempting to guide us along our most positive life paths. It is up to us to be open to spirit and to listen and heed the messages, then follow their guidance and advice, signs and messages.

The angels want us to be happy, healthy and prosperous in our lives and are always willing to step in and help us as much as they can. The trick is to remember to 'ask'.

The angels ask that you live your life with love and laughter and keep your attitude one of gratitude, positivity and light.

and paying \$5 ...

... or not. Your choice entirely.

There are many people who may say I'm totally crazy to be allowing you to choose whether to pay for this book or not. They may assume that you won't value it if it costs nothing, - so to be honest ... I would certainly like everyone to pay for it ... but it's not about the money, and to me, the price of this book is not as important as the messages contained within.

I wish you love, light and peace,

Joanne
